

Hoelschers Accept Fieldhouse Manager Position at NorthStar Sports Complex

ALEXANDRIA, Minn. (July 19, 2018) – The NorthStar Group is excited to announce that Gerry and Leslie Hoelscher have accepted the position of Fieldhouse Manager at the Sports Complex.

The Sports Complex is a 70,000-square foot facility that, on one side, houses a skating rink and on the other, a fieldhouse with first class indoor turf. The fieldhouse is set up for soccer (half court), batting cages and indoor diamond for baseball and softball, golf hitting bays, and general training space for speed, agility and strength workouts.

Gerry currently serves on the FCA board where he spearheads the annual golf tournament, 5k and half marathon and other FCA activities. He also serves on the Love INC board and the local National Day of Prayer committee. He managed the Knute Nelson Baseball stadium for 13 years where he cared for the overall facility and organized volunteers. He worked at the local YMCA for four years and coached basketball and baseball in District 206 for 40 years.

In their role as Sports Complex manager the Hoelschers will be responsible for ensuring the facility is serving the Alexandria Area, promoting facility usage, programs, and events.

“This is the perfect time, for us as a couple, to be able to give back to the youth in the community,” says Gerry Hoelscher, “More important than winning, is teaching character. We love that the sports complex has a vision to impact lives both on and off the field.”

“Gerry and Leslie have been leaders in our community for many years and have a heart for young people,” says Vern Anderson, “We know they will create a welcoming environment and support our vision to provide a safe place where athletes can come to compete while being uplifted by transformational coaches.”

The Sports Complex is currently looking to fill a similar position on the Rink side of the facility. Interested parties can go to www.NorthstarSportsComplex.org for more information.

About The NorthStar Group

The NorthStar Group is comprised of men and women who are committed to investing in academic development, physical training and spiritual enrichment of students and athletes. We do this by incorporating Christian principles into education, sports and mentoring through quality coaches within our community, the north central region and the United States.
